

DMO, at least once in a quarter on a passenger train to the nearest junction station where it may be detached and brought back. This shall be arranged by the SSE (C&W) and the Station Manager in consultation with the control and the Divisional Chief Medical Superintendent.

Note: The movements of the Medical Van shall immediately be advised to the concerned DMO by the Station Manager.

605.8 Water drums in Medical Relief Vans:

The water drums kept in the Medical Van shall always be kept filled with water upto the brim by the SSE (C&W). Chlorination shall be done by the Divisional Medical Officer if the water is not already chlorinated. The drums shall be prevented from becoming rusty by filling them to the brim.

606 Joint Inspection of entire Accident Relief Machinery by Divisional Officers: The entire Accident Relief Machinery as a whole i.e., the Medical Relief Train, the Accident Relief Train and the Crane Special inclusive of the Mechanical and engineering Tool vans shall be inspected by a Committee consisting of Sr.DSO / DSO, Sr.DEN / DEN, Sr.DME / DME, Sr.DEE / DEE, Sr.DSTE / DSTE and Sr.DMO / DMO at least once in six months, and a joint report regarding the results of the Inspection submitted to the Divisional Railway Manager. The Sr.DSO / DSO shall act as the Secretary of the Committee and shall be responsible for convening the periodical meeting and submitting the joint report to the Divisional Railway Manager. Only in regard to matters concerning change in policy, equipment or stabling arrangement, if any, the Divisional Railway Manager shall address the Chief Safety Officer for orders; in all other respects he shall dispose of the case. The consolidated statement showing the dates on which the joint inspection was made shall be submitted by the Divisional Railway Manager to the Chief Safety Officer, by the end of the month following the six months period.

607 Action to be taken by Divisional Medical Superintendent on receipt of information of an Accident requiring Medical Assistance: On receipt of information of an accident necessitating medical attendance either from the control or by the sounding of the siren, shall ascertain from the control or the Station Master as to the exact nature of the accident, the probable number of persons injured etc. He shall precisely note down these particulars in a book maintained for this purpose with the time and date of receipt of the message.

608 Action to be taken by Divisional Medical Officer, where no special Medical Relief Equipment is provided:

- a) The Medical Officer of the Health Unit, where no special Medical Relief Equipment is provided, shall proceed at once to the site of accident by the quickest means of transport available, sending at the same time a message to the Divisional Medical Officer of the nearest station where special Medical Relief Equipment is provided asking him to move the equipment to the accident spot by first means and stating that he is proceeding to the accident spot.
- b) The DMO shall take with him his medical bag / POMKA and the Emergency Box supplied to his health unit.

608.1 Action to be taken by Divisional Medical Officer at a place where Scale II medical equipment is provided:

The Divisional Medical Officer at a place where Scale II equipment is provided shall proceed to the accident spot by the first available means taking with him, if possible, the entire Scale II equipment. If it is not possible to take the entire equipment by the first available means, he shall proceed taking with him as much of the equipment as possible and arranging with the Station Master to send the remaining equipment by the next available means, i.e., train, trolley, motor car etc. He shall also take with him his medical bag and the emergency box available in the Health Unit.
